DETAILED ACTION

Drawings

The drawings filed 10/26/04 are acceptable.

Allowable Subject Matter

Claims 49-74 are allowed.

The following is an examiner's statement of reasons for allowance: In light of applicant's remarks and the showing of Figure 1, the phrase "the specular body fully rotates" recited in claims 49, 58 and 67, last paragraph, means the specular body rotates 180 degrees. None of the cited references, alone or in combination, teaches or suggests a beam radiation apparatus having the specular body which rotates at an angle of 180 degrees in combination with the remaining features recited in each of the claims 49, 58 and 67.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Examiner' Amendment

This application is in condition for allowance except for the presence of claims 13-23 directed to the invention non-elected without traverse. Accordingly, claims 13-23 have been cancelled.
